MATH 1 - Calculus

October 2008 Cycle

Accept as proposed

Proposed LDTP ID: TCSU MATH 220

MATH 2 - Calculus

October 2008 Cycle

Not accepted

LDTP Notes Course topics should include: calculus with parametric curves; polar curves and calculus
to Campus: with polar curves; conic sections; sequences and their convergence and divergence; general series and their convergence and divergence, including the ratio, root, and comparison tests for convergence; alternating series; logarithmic differentiation and integration of power series; and binomial series.

Proposed LDTP ID: TCSU MATH 230

MATH 3 - Vector Calculus

October 2008 Cycle

Not accepted

LDTP Notes Course topics must include: equations (vector and rectangular) of a plane; limits and
to Campus: continuity of multivariable functions; tangents; local and global maxima and minima, saddle points; maxima and minima, and the change of variables theorem and the Jacobian, (Lagrange multipliers).

Proposed LDTP ID: TCSU MATH 240

MATH 4 - Differential Equations

October 2008 Cycle

Not accepted

LDTP Notes Course outline/topics is missing: multivariable calculus as a prerequisite, Eigenvalues
to Campus: including complex eigenvalues, the method of elimination, or Laplace transforms, Wronskian, existence and uniqueness of solutions.

Proposed LDTP ID: TCSU MATH SEQ A

MATH 1 - Calculus**MATH 2 - Calculus**

October 2008 Cycle

Not accepted
